

CERTIFICATE

This is to certify that **Arijus Vaškiavičius** completed the SKILLed FinTech specialised talent development programme at KTU Talent Academy. The duration of the programme is 4 years.

SKILLed FinTech is a programme for talented and motivated students to acquire deep knowledge in the field of financial technologies during their studies, develop their potential, while accepting personal and professional challenges, participating in scientific and business projects and other non-formal activities. This programme provides students with the possibilities for the development of their professional and personal competencies.
